

HEAR WHAT YOU'VE BEEN MISSING!

*Listen with a Honeybox™ omnisonic imager™,
a quantum leap forward in stereo reproduction!*

OMNISONIC IMAGERY™ IS HERE!

Our innovative state-of-the-art electronics create a totally unique sound environment never before possible. With Honeybox™, you can now experience the physiological sensation of what amounts to three-dimensional sound reproduction — what we call omnisonic imagery™ — from just two speakers. Sound appears to come from many sources in the listening area, depending on the quality of the signal source. A common reaction is to look about for other speakers. *And you don't have to sit rigidly fixed at a focal point between the speakers to enjoy Honeybox™!*

RETROFITS TO MOST STEREO SYSTEMS

Any unit with a tape monitor facility (internal tape loop) can mate with Honeybox™. It also has a built-in tape monitor button so you don't lose your existing tape monitor facility.

Honeybox™ works on any binaural source — FM, tapes, and records. You can record selections via Honeybox™ and replay them on conventional stereo equipment also.

Now that you've read all about Honeybox™, don't you think it's time to hear one? If we have stimulated your interest in seeking the finest sound reproduction in the purest sense, please ask your dealer for a live demonstration. If you have any questions, or need to know the name of the dealer nearest you, call or write to:

OMNISONIX, LTD.

THREE DIMENSIONS IN SOUND!

Stereo without Honeybox™ produces sound from two distinct sources. Music from the speakers arrives at your ear, but most of it falls on the floor. The result is often "muddiness" and loss of presence. Only two dimensions result — volume level and stereo separation.

Stereo with Honeybox™ creates omnisonic imagery™ never before possible. Sound seems to come from the near and far. At times, it surrounds you, and appears to come from behind you and below you. The sound never has a chance to fall to the floor. It is so alive with movement that it envelopes you. Three dimensions — volume level, stereo separation, and omnisonic imagery™ are apparent with Honeybox™.

LIFETIME WARRANTY!

You get a lifetime warranty on the active circuitry, and one year on all other components (excluding case and line cord), provided Honeybox™ is used as intended. If you run over it with a truck, the warranty is void!

Dealers — join our rapidly-growing network. Write to our Sales Dept. for details. Visit our booth at the June C.E.S., Chicago.
